

**INSPECTION & ACCEPTANCE
REBOUNDABLE, NON-METALLIC, DRUM-LIKE, CHANNELIZING DEVICES**

GENERAL

Reboundable non-metallic, drum-like, channelizing devices intended to provide temporary traffic channelizing shall meet the requirements of Article 4188.02.

ACCEPTANCE

Acceptance of reboundable non-metallic drums will be based on satisfactory test results of a preliminary sample furnished to the Iowa Department of Transportation, Office of Materials, Ames, Iowa, and the manufacturer certification statement of specification compliance. A list of approved manufactured drums based on preliminary sample results and certification documentation will be developed and maintained by the Office of Materials. This list appears in Appendix A.

CERTIFICATION

The manufacturer shall provide the Office of Materials the following statement of certification:

Certification Statement

This is to certify that (manufacturer name, product number) this reboundable, non-metallic, drum-like, channelizing device meets the requirements of the applicable specification of the Iowa Department of Transportation.

Authorized Date and Signature

A responsible company representative shall sign the certification statement.
